## ABOUT

*BLOCKROCK* is a 3-dimensional, experimental, uppercase typeface, inspired by photographs of blocks of buildings seen from a bird's eye view—prefabricated slab-construction buildings (Plattenbauten) of former GDR.

There are two versions of this typeface: *BLOCKROCK*, which contains more complexe ›buildings‹ and *BLOCKROCK Simple*, a simplified version, with more straight ›buildings‹. In *BLOCKROCK Simple* you will find also a difference in uppercase letters and lowercase letters. The first one are higher buildings and the second one lower.

*BLOCKROCK* & *BLOCKROCK Simple* come with six styles/weights: Regular, Outline, Solid, Roof, Side and Front. The weights can easily get combined to build proper three-dimensional letter buildings.
